

Kids 'n Nature

SCHOOL PROGRAMS AT PRESQU'ILE PROVINCIAL PARK

CONNECT WITH NATURE

The Kids 'n Nature program encourages children to understand and care for our region's rich biodiversity - investigating how ecology works, why biodiversity is important, and why its preservation affects humans individually and collectively.

Our programming explores: food chains, habitat health and interconnectedness, species and habitat sustainability, human benefit, and stewardship.

CURRICULUM-BASED PROGRAMS

CHOOSE A TOPIC

Kindergarten: Caring for Our Environment
Grade 1: Characteristics of Living Things
Grade 2: Growth and Changes in Animals
Grade 3: Growth and Changes in Plants
